“ Pam, you are in my thoughts and prayers. I will miss the occasional times of seeing you in Huntley, at church, or out-and-about in the area. We would catch up on things from the prior times we last met. It was always nice talking with you. I knew you from the days starting elementary school and with us graduating together in 1968 from Huntley High School. It was always nice seeing you from time to time since high school. Family, friends, and faith were important to you. I will always remember your friendly nature throughout time, and I will remember your dedicated ethics in everything you did. You are with God and family and friends awaiting you in heaven. Prayers are added for those family and friends left behind who will miss you always.

“ Life was way to short for you to go. I will miss you deeply. You were my friend for so many years and your laughter is something I will never forget. RIP Pam
