“ Our daughter Kaylin was in class with your son and our family has had the opportunity to spend time with Frankie and other kids in his class. Our oldest daughter (Savannah) had the privilege of interacting with Frankie and the other kids at Sedom when she was not in school. She is graduating this year and is going to school to become a cosmotologist and her specialty is going to be with handicap children as she has seen how many people struggle to find a good person to even cut hair on a handicap person. Our family sends our deepest condolences to your family.

Kaylin Church (Family) - April 30, 2018 at 01:48 AM

“ We are so sorry for your loss. May you find comfort in knowing Frankie is in God's arms now. Please know we are thinking of you and your wonderful family and remembering the stories you would tell about Frankie and your other boys and how proud you were of all your boys, but especially proud of their love and special relationships with Frankie. He will be missed. May God grant your family peace, strength and comfort.

“ I'm Helena and Maria's friend who gave Lance's eulogy. Helena told me of her dear cousin Frankie's passing and I wanted to extend our family's heartfelt condolences.

We were reading Frankie's obituary and we can see that even in his short lifetime, Frankie had a wonderful effect on all those whose lives he touched.

That is one of the best tributes to anyone's life.

“ Dear Franky,

I will never forget our times together. I remember Joey and Nicky came to stay with me and Uncle Lance and Auntie Ria when you were born. I was so excited to have a new cousin. Little did I know how much you would change my life. You taught me compassion and perseverance and happiness. When I think of the times we spent together, I think of you and me sitting downstairs on the couch in my basement. I always loved when mom and dad gave you a haircut. I would sit there and stroke the top of your head and your bright little face would turn and smile at me while you patted your knee and took a sip of your pop. Being the ladies man you always were, you would then grab my hand and twirl my hair. I'm so honored to have had such a handsome little man adore me.

I'm very sad you no longer are able to be with us and experience life on earth, but somewhere in Heaven you are being treated like the king you are. You are going to have a lot of new experiences. You will get to meet our ancestors and maybe you will even solve the mystery of why our family is so goofy at times! I hope that Uncle Lance served up a good dinner to you last night. My guess is that you had some ribs, bacon, and prime rib medium rare, and if you got anything less then you tell Uncle Lance you demand a refund. Poke him in the belly button for me and have a blast hanging out together. Make guitars, watch the Sox, have bonfires, plant a garden, and eat bacon together. It will be hard for all of us to not see your joyous smile anymore, but watch over us and we will all live in your honor until we see each other again.

I love you Franky.

Your cousin,

Helena
